June 23—*Sunday Morning*. Baccalaureate Sermon.
June 25—*Tuesday Afternoon*. Class-Day Exercises.
June 25—*Tuesday Evening*. Contests in Public Speaking.
June 26—*Wednesday Morning*. Commencement Exercises.
June 26—*Wednesday Afternoon*. Meeting of the Alumni Association.
June 26—*Wednesday Noon*. Spring Term ends.

SUMMER VACATION—NINE WEEKS.

* The date of this examination may be changed. For date of special examinations, see page 30.

Historical Extracts.

FROM THE SECOND CATALOGUE OF THE MILLERSVILLE NORMAL SCHOOL, ISSUED IN 1856.

"This institution is emphatically the outgrowth of the present increased interest in education, especially in education by common schools.

"During the summer of 1854, a number of citizens of Millersville and its vicinity, desiring a more liberal education than that furnished by the common schools of the neighborhood, erected a building for the purpose of establishing a school, which they proposed to denominate the *Millersville Academy*.

"In the spring of 1855, learning that the County Superintendent desired a suitable building in which to hold, for the space of three months, a Teachers' Institute, the trustees offered this gratuitously for that purpose, promising to supply any want of boarding accommodations by private hospitality. The Institute opened on the 17th of April, and during the term there was an attendance of 135 regular students. The results were of such a satisfactory nature, and pointed so clearly to a want of permanent institutions of like character, that the trustees resolved to treble the size of their buildings and establish a regular Normal School. By the 5th of November the new buildings were ready for reception of students. The experiment was successful, and the number of students proved that the projectors of the school had not miscalculated its necessity."—*Catalogue of 1855-'56*.

FROM DR. J. P. WICKERSHAM'S HISTORY OF EDUCATION IN PENNSYLVANIA.

"Soon after the passage of the Normal School law of 1857, preparations were begun at Millersville to bring the school up to its requirements. More ground was needed, additional buildings had to be erected, and it was necessary to spend large sums in furniture and equipments. * * * The institution was at last ready for inspection, and on the second day of December, 1859, amid great rejoicing, it became the First State Normal School in Pennsylvania and the model after which all the others are patterned. * * * The future prosperity of the school seems assured, and as to its past record, it may well claim to have done more to develop the science of education and to introduce improved methods of teaching than any other educational institution in the State."—*History of Education in Pennsylvania*.

A FEW STATISTICS FROM THE REPORT OF THE SUPERINTENDENT OF PUBLIC INSTRUCTION FOR 1903.

Total number of students, 37,435; total number of graduates, 2,554; total number of volumes in libraries, 11,100; total value of property, July, 1905, \$560,209.19; value of apparatus, \$6,000; value of musical instruments, \$7,000; value of furniture, \$55,250.

Bookkeeping, Penmanship and Pedagogics.

JOHN F. STAPLETON,
Physical Training for Gentlemen, Physiology
and Methods.

GEORGE E. WEBSTER, M.Pd.,
Manual Training and Pedagogics.

PHARES H. HERTZOG, B.Pd.,
Natural Science.

HENRY C. SYMONS,
Mathematics.

WILLIAM H. MILLER,
Mathematics and Pedagogics.

JOSHUA A. HUNTER, A.B.,
Latin and Greek.

Board of Instruction—Continued.

ABRAM S. LONGENECKER, B.Pd.,
Mathematics and Pedagogics.

IRA R. KRAYBILL, B.Pd.,
English and History.

JOHN S. SIMONS, B.Pd.,
Mathematics and Geography.

J. LATIMER BROOKS, B.Pd., A.B.,
English Branches.

R. K. BUEHRLE, Ph.D.,
Non-resident Lecturer on Graded Schools.

MISS ANNA LYLE, M.E.,
History, Civil Government and Pedagogics.

MISS SARAH H. GILBERT, M.S.,
English Grammar and Pedagogics.

MISS AMANDA LANDES, M. E.,
Reading, Elocution and Pedagogics.

MISS CARRIE E. MYERS, M.E.,
Assistant Superintendent of Model School.

MISS LILIAN M. GHERST, M.Pd.,
English Branches.

MISS MARY EDITH ALLEN,
Voice Culture and Pedagogics.

MISS MARIAN P. MINER,
Piano and Organ.

MISS H. MAY STUBBS,
Drawing and Pedagogics.

MISS ADA M. STORM,
Literature and Elocution.

MISS MADGE S. JACKMAN,
Physical Training for Ladies and Physiology.

MISS BEULAH G. MUMMAUGH,
German and French.

FRONT OF ADMINISTRATION BUILDING.
FRONT, 60 FEET; DEPTH, 150 FEET.

Board of Instruction—Continued.

MISS HELEN A. KEISER,
Librarian.

MISS LUVERNE GOODENOUGH,
Kindergarten.

MISS ANNA S. OVERHOLSER,
Geography and English.

MISS SUSAN P. ROHRER,
Mathematics and Latin.

MISS MARGARET ROOT,
Mathematics and English.

MISS LETITIA L. CLARK,
Latin and Mathematics.

MISS FAY BEAM,
History.

MISS ALMA G. RICE,
Critic Teacher.

State Board of Examiners.

1906.

HON. NATHAN C. SCHAEFFER, D.D., LL.D.,
State Superintendent of Public Instruction.

A. C. ROTHERMEL, A.M., Ph.D.,
Principal State Normal School, Kutztown.

PROF. CHAS. W. STINE,
Superintendent of Schools, York County.

PROF. H. H. SPAYD,
Superintendent of Schools, Minersville.

PROF. W. T. GORDON,
Superintendent of Schools, Coatesville.

PROF. CHARLES E. LORD,
Superintendent of Schools, Franklin.

PROF. W. A. WILSON,
Superintendent of Schools, Wilton.

PROF. J. W. COOPER,
Superintendent of Schools, Shenandoah.

ELIPHALET ORAM LYTE,
Principal First Pennsylvania State Normal School.

Nature of a Normal School.

A Technical School.

A NORMAL SCHOOL is a school established for the academic and professional preparation of teachers. It differs from academies and colleges in its objects and methods of work. The objects of the academy and college are general culture and the acquisition of knowledge; the object of the Normal School is to impart culture, discipline, skill and learning to its students for a specific and technical purpose, viz.: that of fitting them to teach others. The academy and college aim to teach their students the various branches of knowledge; the Normal School aims to teach its students not only the branches of knowledge, but also the processes by which the learning mind acquires knowledge and the resultant of these processes. These objects and aims distinguish Normal Schools from other institutions of learning, and determine the courses of study in them and the methods by which the studies must be taught.

General Departments.

The qualifications of a teacher, as determined by a correct idea of education, are twofold:

1. *A comprehension of the nature of the being to be educated, and of the branches of knowledge to be taught.*
2. *A comprehension of the principles and methods by which the mental and physical powers are developed, and knowledge and skill are acquired.*

A fully equipped Normal School, therefore, necessarily embraces two general departments of instruction and training, as follows:

1. *The scholastic or academic department*, in which the being to be educated and the branches of knowledge are made the objects of study.
2. *The professional or pedagogical department*, in which are considered the principles and methods by which the mental and physical powers are developed and knowledge and skill are acquired.

Relation to the State.

The relation of the Normal School to the State is close. The State must educate the children within its borders. It must, therefore, establish and maintain a system of public education. The most important factor of this system is the teacher. The teacher must be educated in institutions provided by the State and under State control, if his work is to be properly done. It is consequently both a duty and a necessity for the State to found and support State Normal Schools. These views, which are accepted almost universally throughout the civilized world, show that the function of the Normal School is peculiar, and that its responsibilities are greater than those of other educational institutions.

Object of this Institution.

The object of this institution is mainly professional. It gives to its students—

1. Such knowledge of the studies taught in the public schools as a teacher must have in order to teach them properly.

2. A knowledge of the studies so related to the branches taught in the public schools as to be necessary to a proper understanding of the public school branches.

3. A knowledge of the mental and physical powers of the child and their methods of development.

4. A knowledge of the principles of education and methods of teaching, and their application in the actual work of the school room.

5. A knowledge of the methods of organizing and managing schools.

6. A knowledge of the history of education, so far as it bears upon the work of the public schools of the present day.

7. A knowledge of the schools of the State, especially those devoted to public education.

8. A knowledge of the school law of the State.

9. In brief, this institution aims to prepare teachers both theoretically and practically for the business of teaching in all grades of public schools.

10. This institution also offers to its students an opportunity to fit themselves for entrance to the leading colleges of the country. The demand for teachers of business departments in high schools and of musical departments in seminaries is met by the courses established in these branches.

Courses of Study

For Pennsylvania State Normal Schools.

As revised and adopted at a meeting of Normal School Principals, held at Harrisburg, November 8, 1900. Approved, January 9, 1901. To take effect September, 1902.

Regular Course.

(Studies marked with a (*) are to be reviewed in Senior Year.)

Junior Year.

Pedagogics.—School Management.

Language.—English Grammar,* Reading, Orthography, Latin to Cæsar.

Mathematics.—Arithmetic,* Algebra.

Natural Science.—Physiology.

Historical Science.—Geography, U. S. History, Civil Government of the United States and Pennsylvania.

Arts.—Penmanship (an approved system, with a fair handwriting), Drawing (daily lessons for at least 20 weeks), Vocal Music (elementary principles and daily exercising for at least 10 weeks), Bookkeeping (single entry, with a knowledge of common business papers).

Physical Culture.

Middle Year.

Pedagogics.—Psychology, Methods of Teaching.

Language.—Rhetoric and Composition, with elementary exercises; three books of Cæsar.

Mathematics.—Plane Geometry.

Natural Science.—Elements of Chemistry, Elements of Zoölogy, Botany.

Historical Science.—General History.

Arts.—Manual Training.

Physical Culture.

Senior Year.

Pedagogics.—History of Education, Methods of Teaching, Practice of Teaching in Model School (at least 20 weeks, forty-five minutes daily), Thesis.

Language.—Literature and Classics, three orations of Cicero, three books of Virgil, Review of English Grammar.

Mathematics.—Solid Geometry, Plane Trigonometry and Surveying, Review of Arithmetic.

Natural Science.—Physics, Elements of Geology, Review of Geography.

Physical Culture.

Substitutions.

The following substitutions may be made:

Junior Year.—German or French for Latin.

Middle Year.—German or French for Latin; Greek, German or French for Chemistry.

Senior Year.—English History, Ethics and either Astronomy or Logic for Latin; German or French for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying.

Supplementary Course.

(In addition to the Regular Course.)

Leading to the Degree of Bachelor of Pedagogics.

Philosophy of Education, Advanced Psychology.

Discussion of Educational Questions: School Supervision, including School Law; Devices for Teaching; Educational Theories, etc.

School Apparatus and Appliances. Description, Use, Preparation.

Leading to the Degree of Master of Pedagogics.

Two years' teaching after graduation in the Regular Course.

Professional Reading, with abstracts: History of Education in the United States (Boone), European Schools (Klemm), Systems of Education.

Sanitary Science, School Architecture, etc.

Thesis.

A full equivalent will be accepted for any of the text-books named above. The courses in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all normal schools.

Rules for Final Examinations, Admission to the Middle and Senior Classes, Etc.

(For all the Normal Schools of Pennsylvania.)

1. Admission to the Senior and Middle Classes shall be determined by the State Board of Examiners at their annual examination by the Board.*

2. In order to be admitted to the Middle Class at any State Normal School, students must be examined by the State Board in all the Junior studies (except English Grammar, Arithmetic, Geography and United States History), and this examination shall be final.* Persons who desire to be admitted to the Middle Class without having previously attended a State Normal School, must pass an examination by the Faculty and State Board of Examiners in the academic studies of the Junior year (except the Senior review studies), and Plane Geometry or the first book of Cæsar, and must complete School Management in the Middle year.

* Examinations in the State Normal Schools of Pennsylvania by the State Board of Examiners are held annually in June, and at no other time.

3. In order to be admitted to the Senior Class, students must be examined by the State Board in all the Middle year studies (except Methods), and this examination shall be final.* Persons who desire to be admitted to the Senior Class without having previously attended a State Normal School must pass an examination by the Faculty and State Board in the Academic studies of the entire course, except the review studies of the Senior year; and must devote their time during the Senior year to the professional studies of the course, and the review studies.

4. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examination at any other State Normal School during the same school year.

5. If a person who has completed the examinations required for admission to the Middle or Senior class at any State Normal School desires to enter another Normal School, the Principal of the school at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of the Junior or Middle year studies shall be issued.

6. Candidates for graduation shall be examined by the State Board in all the branches of the Senior year, including English Grammar, Arithmetic, Geography and United States History. They shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double-entry bookkeeping; and all studies completed by them shall be named in their certificates.

7. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. The certificate for the studies of the Junior year shall also include the standing of applicants in the review studies of the Senior year.

9. Graduates of State Normal Schools in the regular course and graduates of accredited colleges may become candidates for the degrees of Bachelor of Pedagogics and Master of Pedagogics. To obtain these degrees, candidates must be examined by the Faculty and State Board upon the studies of the Supplementary Course. Three years' successful teaching in the public schools of the State since graduation (or two years in the case of candidates who taught in the Model School) will be required of all candidates for the degree of Master of Pedagogics, in addition to the branches of study indicated above.

10. Attendance at a State Normal School during the entire Senior Year will be required of all candidates for graduation; but candidates for the pedagogical degrees may prepare the required work in absentia.

Courses of Study.

Arranged for this Institution.

Normal Department—Regular Course.

THE studies of the Regular Course as here arranged are so graded as to accomplish two objects: (1) To enable the students to pursue and complete the different branches in the proper order; and (2) to fit students as soon as possible for the work of teaching.

All branches of the Regular Course may be "passed" on "special" examinations. Our object is to give students full credit for what they know when they enter school, and to classify them where they can make the most rapid advancement in their studies consistent with thoroughness.

The Regular Course Arranged by Terms.

C Preparatory Classes.

1. FALL TERM. *Required Studies.* Reading and Orthography, Grammar and Composition. Written Arithmetic, Physiology or Political Geography, Penmanship, Physical Culture, two studies selected from group of Elective Studies.*

2. WINTER TERM. *Required Studies.* Continuation of Fall Term studies.*

3. SPRING TERM. *Required Studies.* Continuation of Winter Term studies.*

B Preparatory Classes.

1. FALL TERM. *Required Studies.*† Reading, Grammar and Composition, Written Arithmetic or Mental Arithmetic, Political Geography or Physiology, Penmanship or Drawing, Physical Culture, two studies selected from group of B Elective Studies.†

2. WINTER TERM. *Required Studies.* Reading or Elements of Literature, Grammar and Composition, Written Arithmetic or Mental Arithmetic, Political Geography or Physiology, Penmanship or Drawing, Physical Culture, two studies selected from group of B Elective Studies.†

3. SPRING TERM. *Required Studies.* Reading or Elements of Literature, Grammar and Composition, Written Arithmetic or Mental Arithmetic, Political Geography or Physiology or Physical Geography, Penmanship or Drawing, Physical Culture, two studies selected from group of B Elective Studies.

* *Elective Studies for C Class.* Latin, U. S. History, Mental Arithmetic, Political Geography, Drawing, Vocal Music, German, French, Methods.

† *Elective Studies for B Class.* Latin, Algebra, U. S. History, Mental Arithmetic, Physiology, Physical Geography (3B), German, French, Drawing, Vocal Music, Book-keeping (3B), Methods.

A Preparatory Classes.

The A Classes may be considered "conditional" Junior Classes.

1. FALL TERM. *Required Studies.** Reading or Elements of Literature, Grammar, Written Arithmetic, Algebra or Mental Arithmetic, Political Geography or Physiology, U. S. History, Drawing or Penmanship, Physical Culture.

2. WINTER TERM. *Required Studies.** Reading or Elements of Literature, Grammar, Written Arithmetic, Algebra or Mental Arithmetic, Political Geography or Physiology or Physical Geography, U. S. History, Drawing or Penmanship, Physical Culture.

3. SPRING TERM. *Required Studies.* Reading or Elements of Literature, Grammar, Written Arithmetic, Algebra or Mental Arithmetic, Political Geography or Physiology or Physical Geography, U. S. History, Drawing or Penmanship, Physical Culture.

For every study completed of the "Required Studies" one of the "Elective Studies" must be substituted.

Sub-Junior Studies.

The following studies must be completed before a student is admitted unconditionally to the Junior Class.

Reading, Orthography, Political Geography, Physiology, Penmanship.

A fair knowledge of the "required" preparatory branches will also be demanded for admission to the Junior Class.

Junior Year.

1. FIRST TERM.† *Required Studies.‡* Methods, English Grammar, Latin, Algebra, *Mental Arithmetic*, U. S. History, Drawing, *Vocal Music*, Physical Culture.

2. SECOND TERM.† *Required Studies.‡* Methods, *Elements of Literature*, Latin, Written Arithmetic, Algebra, *Physical Geography*, U. S. History, Drawing, Physical Culture.

3. THIRD TERM.† *Required Studies.‡* *School Management*, English Grammar, Latin to Caesar, Written Arithmetic, Algebra, Botany, Civics, Single Entry Bookkeeping, Physical Culture.

Substitution. German or French for Latin.

Elective Studies for Junior Classes. Manual Training, German French, Middle Year Studies.

* *Elective Studies for A Classes.* Latin, Algebra, Physical Geography, Physiology, Mental Arithmetic, Drawing, Elements of Literature and Composition, Vocal Music, Bookkeeping, Methods, German, French.

† Classes in the "First Term" studies of the Junior Year will be formed in the fall and spring terms; "Second Term" studies in the winter and spring terms; "Third Term" studies in the spring term.

‡ For every study completed of the "Required Studies," one of the "Elective Studies" should be substituted.

SOUTH FRONT.

EAST FRONT.

THE NORMAL SCHOOL BUILDING IN 1858.

FROM A PHOTOGRAPH.

LOOKING FROM THE LIBRARY DOOR.

Middle Year.

1. FALL TERM. *Required Studies:* Psychology, Methods, Rhetoric and Composition, Cæsar, Plane Geometry, Elements of Chemistry, General History, Manual Training, Physical Culture.

2. WINTER TERM. *Required Studies.* Psychology, Methods, Rhetoric and Composition, Cæsar, Plane Geometry, *Elements of Chemistry, General History*, Manual Training, Physical Culture.

3. SPRING TERM. *Required Studies.* Methods and Observation in Model School, *Rhetoric and Composition, Cæsar, Plane Geometry, Botany, Elements of Zoology, Manual Training*, Physical Culture.

Substitutions.—German or French for Latin; Greek, German or French for Chemistry.

Elective Studies for Middle Year.—Greek, German, French, Senior Studies.

Classes in the studies of the fall and winter terms of the Middle Year are not formed in the Spring term, as a rule. Students will find it exceedingly beneficial, if not absolutely necessary, to attend school during the entire Middle Year.

Senior Year.

1. FALL TERM. *Required Studies.* History of Education, Methods, Practice in Model School, *English Classics, Cicero, Solid Geometry, Physics, Physical Culture.*

2. WINTER TERM. *Required Studies.* Methods, Practice in Model School, *American Literature, Cicero and Virgil, Trigonometry and Surveying, Physics, Physical Culture.*

3. SPRING TERM. *Required Studies.* Methods, Practice in Model School, *English Literature, Virgil, Surveying and Review Arithmetic, Geology, Review English Grammar, Physical Culture.*

Substitutions.—German or French for Latin; English History, Ethics and either Astronomy or Logic for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying.

Elective Studies for Senior Year.—Greek, French, German, advanced work in Latin, History, Mathematics.

Attendance during the entire school year is required.

The township high school law requires the Regular Course *without any substitutions.*

Supplementary Course.

(In addition to the Regular Course.)

First Year.

Leading to the Degree of B. Pd.—The following text-books are suggested, though others equally good may be used: Rosenkranz's or Horne's Philosophy of Education, James's Advanced Psychology (Briefer course), Harris's Psychological Foundations, Packard's and Dutton's School Supervision. For Devices for Teaching, Baldwin's School Management and Method, Part IV and Part VI, may be studied. For Educational Theories, see any good History

of Education and the article on "Education" in the Encyclopedia Britannica. The subject of School Apparatus and Appliances may be worked up as an original subject.

Second Year.

Leading to the Degree of M.Pd.—Two years Teaching after Graduation in the Regular Course. History of Education in the United States, Boone; European Schools, Klemm; Educational Foundations of Trade and Industry, Ware. For Sanitary Science, the following are suggested: Wheelright, chapter 11; Morrison's Heating and Ventilating of School Buildings, and Encyclopedia Britannica, articles on "Hygiene and Sewerage." School Architecture, Wheelright, chapters 1, 2, 5; or School Architecture and Hygiene, Morrison. The subject, "Systems of Education," may be briefly discussed in place of a thesis.

College Preparatory Course.

Students will have an opportunity of pursuing college preparatory studies in connection with their regular work when the studies can be provided for without disadvantage to the school. See page 23 of this catalogue.

Business Course. Preparatory Studies.

To be completed.—Penmanship, Reading, Orthography and Political Geography.

A fair knowledge of Written Arithmetic, Mental Arithmetic, Grammar and Compositions, and S. E. Bookkeeping.

Business Course, Completed.

Required.—Business Penmanship, U. S. History, 12 sets D. E. Bookkeeping (3 periods), Grammar and Composition, Written Arithmetic, Commercial Geography, Civics, Commercial Law, Physical Culture.

Optional.—Shorthand and Typewriting.

Typewriting.

A Course in Typewriting may be taken in connection with the foregoing Business Course or independently of it. Students usually acquire a good rate of speed in three months with one hour's daily practice.

Shorthand.

PREPARATORY—ADVANCED.

The Shorthand Course may be taken with either of the foregoing Courses or independently of them. It usually requires about six months to complete the Preparatory Course in Shorthand, though students may acquire a sufficient knowledge of the subject in a shorter time to enable them to continue the practice without a teacher.

Kindergarten Course.

Complete Junior Year as outlined.

Substitutions for Middle Year.—Special Kindergarten work (3 periods), Latin, Geometry and General History.

Pedagogical Course of College Graduates.

Advanced Psychology, Ethics, Logic, History of Education, Philosophy of Education, Methods of Teaching, School Economy, Practice of Teaching, Course of Professional Reading, Review of Common Branches.

Vocal and Instrumental Music.

(The following courses are so arranged that students may study music while pursuing branches of other courses.)

Vocal Course.

FIRST GRADE.—Breathing Gymnastics. Tone Formation. Proper Placing of the Voice. Vowel Studies and Phonetics, Vocalises, selected from Concone, Delle Sedie, Donaldi Vaccai, etc. Study of English Ballad as a form, Easy Songs.

SECOND GRADE.—Studies in Phrasing. Colorative Exercises, Vocalises by Concone, Panofka, Bordogni, etc., Italian pronunciation, Study of the German "Leid," Songs from the English, Italian and French Schools.

THIRD GRADE.—Studies in rapid execution and musical form. Easier arias from Opera and Oratorio, Special study of the different schools.

FOURTH GRADE.—Selections from the standard Operas and Oratorios, including the works of Bach, Handel, Haydn, Weber, Wagner, Gounod, St. Saens, etc., Songs by Franz, Brahms, Gluck, etc.

Piano Course.

FIRST GRADE.—Kohler's Very First Lessons, Mathew's Graded Studies, Grade I. Schmidt's Five-Finger Exercises. Major Scales, Selections from Gurlitt, Spindler, Liehur, etc.

SECOND GRADE.—Mathew's Graded Studies, Grade II, Mathew's Introduction to Phrasing, Schmidt's Five-Finger Exercises, Major and Minor Scales, Clementi Sonatines, Selections from modern classics composers.

THIRD GRADE.—Mathew's Studies in Phrasing, Book I, Mathew's Graded Studies, Books III and IV. Czerny's Etudes de Velocite, Books 1 and 2, Arpeggios, Mason's Touch and Technic, Book II. Mozart Sonatas. Selections from modern and classic composers.

FOURTH GRADE.—Cramer's Etudes, Bach's Preludes and Fugues, Mason's Touch and Technic, Books III and IV, Beethoven's Sonatas, Selections from Liszt, Chopin, Mendelssohn, Schumann, Griegg.

A Course in Harmony, Theory, History of Music and Analysis is offered to any students who may desire these branches.

Opportunity to complete any of the foregoing courses as early as possible will be afforded. It must be remembered, however, that studies are taught in this institution from the point of view of the teacher, and that consequently they are differently (and more thoroughly) taught than in academies and high schools.

Classes with fewer than seven students will not be formed, as a rule, or, if formed, they may recite only on alternate days.

Studies not named in the foregoing courses will not be taught except by special arrangement, and extra charges may be made for all such branches.

Persons not connected with the school will not be permitted, as a rule, to give students lessons in any subject.

Saturday Classes.

Non-resident students may arrange with the members of the Faculty for Saturday classes.

Academic Departments.

THE first qualifications of a teacher are cultured powers and a well-informed mind. He needs knowledge in order to be able to instruct others; a person cannot teach what he does not know, and he should know much more than he attempts to teach. He needs culture for the power that it gives; the power to think, to originate, to influence and to control. Hence—

1. *Thorough scholarship lies at the foundation of a teacher's course.*

2. *A Normal School should make careful and ample provisions for the academic training of its students.*

The courses of study arranged for this institution are in accordance with these principles. All the branches of knowledge included in them are essential to give the student general culture, and to fit him academically for the profession of teaching. As will be seen by reference to the "Courses of Study," the work in each department is carefully graded. Attention is called to the work in the various academic departments.

English Department.

Reading.—Special attention is given to Reading and Elocution. In addition to teaching Reading as the process of obtaining thought from the printed page, and thus emphasizing the vital part of this subject, the course embraces the principles of elocution and daily practice in their application. Frequent exercises in recitation and declamation are also required, and constant attention is paid to peculiarities and defects in pronunciation. This department endeavors to inculcate a taste for good reading and to improve the oral expression of thought, and aids the other departments of the school in training our students in the correct use of pure English.

Grammar.—A proper amount of attention is given to the study of English Grammar. All our students have daily exercises in this branch from the time they are prepared to begin the study until it is completed. In the lower classes the method of instruction is concrete and inductive, much attention being paid to the proper use of words, the construction of sentences and the correction of false syntax. In the higher classes analyses and the philosophical principles of Grammar are made more prominent.

English Literature and Composition.—The course includes Orthography, Composition, Rhetoric, the study of selected English classics and the history

of English and American Literature. Composition is begun in the Grammar classes, pursued as a separate study in the Junior year, and continued in the Middle year, with a text-book on Rhetoric as a basis. Throughout the course stress is laid upon practice rather than theory. The work in Literature is begun in the reading classes. In the Junior and Middle years it is continued in connection with Composition, the class studying a play of Shakspeare and other classics. The Senior class covers the work prescribed for college entrance, comprising the careful study of five classics and the reading of ten others, with a systematic study of the history of English and American literature, and a course of reading in the works of representative authors. The excellent libraries of the school are in constant use in this department, and efforts are made to teach our students to appreciate good literature. The books prescribed for the years 1906-7 are as follows:

For Careful Study.

Burke's Speech on Conciliation with America (1906-7).
 Macaulay's Essay on Addison (1906-7).
 Macaulay's Life of Johnson (1906-7).
 Milton's Minor Poems (1906-7).
 Shakspeare's Julius Cæsar (1906-7).

For Reading.

Addison's De Coverley's Papers (1906-7).
 Coleridge's The Ancient Mariner (1906-7).
 George Eliot's Silas Marner (1906-7).
 Goldsmith's The Vicar of Wakefield (1906-7).
 Irving's Life of Goldsmith (1906-7).
 Lowell's The Vision of Sir Launfal (1906-7).
 Scott's Ivanhoe (1906-7).
 Scott's Lady of the Lake (1906-7).
 Shakspeare's Macbeth (1906-7).
 Shakspeare's The Merchant of Venice (1906-7).
 Tennyson's Idylls of the King (1906-7).

At present there are seven instructors in this department.

Classical Department.

Latin.—To complete the Latin of the Regular Course requires about three years. During this time students receive a thorough drill in Latin Grammar, learn to translate Cæsar, Virgil and Cicero, and lay an excellent foundation for a more extended study of the language than is required for the Normal School Course. The study of Latin, as here pursued, is of great value on account of the mental discipline that it gives and the exercise in the selection and discrimination of English words that it affords.

Greek, German and French.—These languages are taught by competent instructors. The extent to which they may be studied depends upon the time and desire of the student and the conditions of the school.

The work in the classical department aims to fit students to enter the leading colleges of the country without conditions. Many colleges now admit our students to the Freshmen classes on the certificate of the Faculty. It may be added that students have entered the Sophomore, Junior and Senior classes in college from this school, though the school does not regularly provide for advanced work.

There are at present six instructors in this department.

Geographical and Historical Department.

Geography.—The course in this subject includes Political, Physical and Mathematical Geography, as well as considerable work in Physiography. The department is fully supplied with maps, globes, etc. In addition to the course as usually pursued, each student is taught how to do some "Nature Work" in Geography. A special class in "Nature Study" in the form of Physiography is organized whenever required, and this gives students an opportunity to do advanced work in this branch.

History.—The Normal School Course embraces History of the United States, General History, and Civil Government, both State and National. The library method is used in connection with the text-book in the study of these branches.

There are six instructors in this department at present.

Natural Science.

Natural Science.—Our facilities for the study of Natural Sciences are excellent. We have a large collection of mineral and plants in the museums, and the country around is unusually rich in botanical specimens. To aid in teaching Physiology, we have purchased the necessary anatomical apparatus, consisting of French models, skeletons, etc. Twelve large microscopes of superior manufacture have been purchased, and portions of nearly all the tissues, glands and organs of the body have been carefully mounted and prepared for use in the study of Physiology. The same facilities are at hand for the study of Botany. A large collection of native birds and a collection of native woods have been placed in the museum. We are also well supplied with Philosophical apparatus, much of which was selected for this school in Germany. We have also added a dynamo and other electrical appliances, so as to be able to illustrate clearly the recent practical and interesting applications of electricity; including wireless telegraphy.

Chemistry.—The instruction in this branch is designed to prepare teachers to perform various chemical experiments and to give lectures to their classes. It also gives the necessary preparatory knowledge to students who intend to study medicine or to prepare for any other professional or occupation in such knowledge of Chemistry is required.

In this department and the geographical department students gain a knowledge of the facts and principles which underlie the courses in "Nature Study" now given in the best public schools.

At present there are seven instructors in this department.

Mathematical Department.

Mathematics.—The course in Mathematics aims to secure two objects: the development of the power of deductive reasoning and practical skill in the application of mathematical principles. The course in Arithmetic is thorough and complete. The objects of the study of Mental Arithmetic are analysis and mental discipline, while in Written Arithmetic the aim is the power of synthetical thought and skill in the application of the science of numbers. The other branches of mathematics are likewise thoroughly taught. The relation of Algebra and Geometry to Arithmetic is made clear. The scientific course in Mathematics is more extensive than the mathematical course in many colleges.

There are eight instructors in this department at the present time.

Drawing and Manual Training.

Drawing.—The subject of Form Study and Drawing receives the attention which its importance demands. A carefully graded course, embracing the latest and best methods of presenting the subject, is provided for our students, and a large room is specially fitted up and supplied with models, casts, pictures, etc.

Manual Training.—Two large rooms have been supplied with the necessary drawing tables, work benches, tools, etc., for a course in woodwork. The objects of this course are to reinforce the more intellectual studies, and to prepare our students to teach the elements of manual training in the common schools. The classes in this department are in charge of an experienced teacher and skilled mechanic; and students have an opportunity of acquiring a knowledge of the elements of manual training, and also of preparing a number of simple pieces of philosophical and chemical apparatus, geometrical blocks, etc. The work in wood includes a careful study of the grain, quality, and texture of the materials used, in addition to the use of the common bench tools in the construction of articles needed in the school room and the home.

There are two instructors in this department at present.

Department of School Arts.

Bookkeeping.—Theoretical and practical bookkeeping, both single and double entry, typewriting, business correspondence, etc., are taught in such a way as to develop thought, as well as to make students skilled accountants. (In addition to these studies, the business course includes arithmetic, English grammar and composition, penmanship, commercial geography, etc. The opportunities for acquiring a good education in addition to a knowledge of bookkeeping make this course especially valuable.)

1906 FOOT BALL, TEAMS.

Penmanship.—Full opportunity for students to acquire a good style of writing is provided. Ornamental penmanship, pen-drawing, lettering, etc., are also taught.

Vocal Music.—Instruction in the elements of Vocal Music is imparted to our students, including sight reading, the proper management of the voice, the theory of vocal music, the best way of presenting the subject to children, etc. Special lessons in "school music" may be taken.

Special Courses in Music.—To meet the growing demand for teachers of vocal and instrumental music, the courses in music outlined on page 19, which are modeled after the best European music schools, have been arranged in addition to the regular instruction in singing, sight reading, etc.

Shorter courses are also given, and special opportunities are offered in voice culture for gentlemen as well as ladies.

In addition to the regular classes in sight reading, etc., an advanced choral class, composed of the best musical talent of the school, is formed for the study of the great masters. The works of Haydn, Mendelssohn, Stainer, Gounod, Spohr, Mozart, Gaul, Rossini, etc., are studied. Music students will take part in frequent recitals and other public work, as they are qualified.

Arrangements for lessons on the violin, mandolin, flute and other instruments are made when necessary.

There are at present seven instructors in the department of School Arts.

Physical Culture.

This department has been organized for the purpose of providing thorough physical training for our students; the object being, first, the harmonious development of the physical powers, and, second, the preparation of teachers of this important branch. All these exercises are based on physiological and hygienic principles, as determined by the leading authorities on physical education. Special efforts are made in this department to teach students the proper care of their health. The instructors devote their entire time to this department, a lady instructing the ladies and a gentleman having charge of the gentlemen.

Professional Department.

THE Professional Department is an essential department of Normal Schools. It belongs to these schools and to universities. Instruction in this department deals with the principles of education, the relation of the different branches of knowledge to one another and to the mind, and the method by which the human powers may be trained, and the mind stored with knowledge. Without some knowledge of these subjects no one should attempt to train the immortal soul of a child. Hence—

1. *Special preparation is necessary to enter the profession of teaching.*

2. *A Normal School should make broad and thorough provision for the pedagogical training of its students.*

THE PROFESSIONAL COURSE is divided into two parts: The *Science of Teaching* and the *Art of Teaching*. The Science of Teaching investigates the principles and methods by which the mind is developed and knowledge and skill are acquired. The Art of Teaching seeks to apply these principles and methods in the work of education. These two divisions are sometimes designated as the *theory* and *practice* of teaching.

The Theory of Teaching.

THE SCIENCE OF TEACHING, as presented to the students of the Regular Course, embraces the following subjects: *Educational Psychology, Principles of Education, Methods of Teaching, School Economy and History of Education.*

The Science of Teaching receives the attention that its importance demands. Students receive instruction in the elements of Psychology and Pedagogics from their entrance until they reach the second term of the Junior year. During the second half of the Junior year School Economy is taken up and completed. The members of the Middle Class have a daily lesson in Psychology and one in methods of Instruction during the Middle year. Courses of methods of teaching the various branches are conducted by the heads of departments. Eighteen courses are pro-

vided for our classes below the Senior year. The members of the Senior Class pursue a course in History of Education, and a course in Methods of Teaching in connection with their practice work in the Model School.

The Practice of Teaching.

THE ART OF TEACHING is learned:

1. By a study of the principles and methods of teaching.
2. By the observation of good teaching.
3. By the practice of teaching under careful supervision.

As students will imitate the methods by which they are taught, or which they have seen used, great care is taken to employ correct methods of teaching in the academic departments. The methods here used are regarded as a valuable auxiliary in fitting our students for teachers.

In addition to the models of teaching presented in the academic departments, a systematic course of *observation lessons* on the work done in the Model School is arranged for the Middle Classes. These lessons are arranged by the superintendent of the Model School, and are carefully graded, the student being taught *what to observe* and *how to observe*.

The practice of teaching in a Model School, or school of practice, is an indispensable part of the professional course. Lectures on educational topics cannot fit persons to teach children, neither can observation without extended practice. The study of the principles of the science and observation of correct methods must be supplemented by actual practice under careful supervision to attain skill in the art.

The Senior Class practice in the Model School during the entire school year, each student teaching two or three classes daily. This work is done by the Seniors while pursuing their studies in the Normal School, the programme being so arranged that their duties as teachers will not conflict with their duties as students. Their classes are changed when necessary, so that they have an opportunity to give instruction in the different elementary branches, and to work with all grades of pupils; and they are frequently placed in charge of several grades at one time, teaching one class while the other classes are employed in preparing lessons or in

desk work. Careful plans of each week's work are prepared by the student-teachers, and handed to the superintendent for examination; and they are taught how to study children and how to adapt the branches of knowledge to their mental growth.

This work is under the constant supervision of the superintendent of the Model School and his assistants. The Principal of the School inspects the work in the Model School frequently, and the teachers of "Methods," as well as other leading teachers, assist in this department, the object being to harmonize all parts of the school and to have every section work towards one and the same end, that of making *skilled teachers* of our students. Our new Model School building, especially designed for the purpose, enables us to train our students to be teachers, as it would be impossible to do without such a building.

No student is legally qualified to graduate at a State Normal School in Pennsylvania unless he has actually taught in a Model School (or school of practice) forty-five minutes daily for at least twenty weeks.

A kindergarten is established in connection with the Model School. It is under the direction of a skilled kindergartner, who also has charge of a training class in this department. The objects of this branch of our Model School department are to acquaint our graduates with kindergarten methods, which may be used with great advantage in primary grade work, and to prepare teachers for kindergartens and sub-primary grades. Our students derive great benefit from this new feature of Normal School work.

In the spring term a country school is organized in a room in the Model School specially furnished for the purpose. This school is designed as a model country school, and is continued long enough to allow the Seniors an opportunity of learning how to conduct a school of this kind.

Course of Study in Model School and School of Practice.

Kindergarten.

Morning Talk, Gift Work, Physical Exercise, Occupation, including Drawing, Painting, Paper Cutting, Folding and Weaving, Clay Modeling, Music, Games.

Primary School.

FIRST GRADE.—Reading, Number, Language based on Nature Work and Literature, Writing, Drawing and Painting, Manual Training, Music.

SECOND GRADE.—Reading, Number, Language based on Nature Work and Literature, Writing, Drawing and Painting, Manual Training, Music.

THIRD GRADE.—Reading, Number, Oral History, Oral Geography and Sand Modeling, Language based on Nature Work and Literature, Writing, Drawing and Penmanship, Manual Training, Music.

FOURTH GRADE.—Reading, Number, Oral History, Oral Geography and Sand Modeling, Science, Language, Writing, Drawing and Penmanship, Manual Training, Music.

Grammar School.

FIFTH GRADE.—Reading, Oral and Written Arithmetic, History, Geography, and Map Modeling, Language, Science, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

SIXTH GRADE.—Reading, Oral and Written Arithmetic, History, Geography, and Map Modeling, Language, Science, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

SEVENTH GRADE.—Reading, Oral and Written Arithmetic, History, Geography and Map Modeling, Language, Science, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

EIGHTH GRADE.—Reading, Mental and Written Arithmetic, History, Geography and Map Modeling, Grammar, Science, German, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

High School.

NINTH GRADE.—Literature, Mental and Written Arithmetic, Elements of Geometry, History, Geography and Map Modeling, Grammar, German, Latin, Science, Penmanship, Drawing and Painting, Music, Gymnastics.

TENTH GRADE.—Literature, Written Arithmetic, Algebra, General History, Physical Geography, Grammar, German, Latin, Science, Manual Training, Music, Gymnastics.

ELEVENTH GRADE.—Algebra, Geometry, Latin, German, Literature, Grammar, Physical Geography, Physiology, United States History, Gymnastics.

A limited number of pupils will be received in the Model School as boarding pupils, and comfortable homes in private families will be obtained for them if they are too young to board in the school buildings.

Examinations and Diplomas.

Term Examinations.

TERM EXAMINATIONS, for the completion of studies and the promotion of students, are held at the close of each term. Promotions are made, however, *without examination*, whenever warranted by the standing of students.

Special examinations will be held on the first seven Saturdays of each term, at 8:00 A. M., 10:00 A. M. and 1:00 P. M., in the following branches:

- 1st. Political Geography, Orthography, Penmanship.
- 2d. Mental Arithmetic, Physiology, Reading.
- 3d. U. S. History, Physical Geography, Vocal Music.
- 4th. Written Arithmetic, Drawing, Orthography.
- 5th. English Grammar, Elements of Literature, Bookkeeping.
- 6th. Algebra, Botany, "Junior" Latin.
- 7th. Civics, School Economy, Orthography.

Other special examinations will be held when necessary. Persons expecting to attend school, as well as students, have permission to enter any of these examinations.

High school teachers and others may arrange with the Principal to have their pupils examined in any branches in which they desire to be examined, on the first Saturday of each month while this school is in session. These examinations will be held at the Normal School, non-resident examinations having been discontinued at all the Normal Schools by the Board of Principals. High school graduates have the opportunity of completing the studies of the Junior and Middle years in one year.

Final Examination.

Examinations for graduation and for entrance to the Middle and Senior Classes are conducted by the Faculty of the School and by the State Board of Examiners. The Faculty first examine candidates, and, if satisfied with their qualifications, recommend them to the State Board of Examiners for further examination.

The Board of Examiners consists of the State Superintendent of Public Instruction, the Principal of the Normal School at which the examination is held, the Principal of another Normal School

designated by the State Superintendent, and six Superintendents appointed by the State Superintendent.

The Board of Examiners will test the knowledge of the candidates upon all branches of study of the course in which they are examined, special attention being given to the Science and Art of Teaching.

A Thesis upon an educational subject will be required as part of the examination for graduation.

Persons who have been graduated in the elementary or the Regular Course may be examined at any State examination in any of the branches of the advanced courses and have these branches placed on their diplomas.

Certificates and Diplomas.

A student who is graduated in the Regular or the Supplementary Course will receive a certificate, in which will be named the branches of the course, and which will confer upon him the right to teach in the public schools of the State two years without examination.

A regular graduate who has continued his studies for two years, and has practiced his profession during two full annual terms in the common schools of the State, will receive, upon presenting to the Faculty and Board of Examiners, a certificate of good moral character and skill in the Art of Teaching from the Board or Boards of Directors by whom he was employed, countersigned by the proper Superintendent of Schools, a second diploma or certificate, which authorizes him to teach in the public schools of the State without examination. *Applications for the second diploma should be filed with the Principal before the meeting of the State Board of Examiners in June.*

A graduate in the Regular Course who completes the first year in the Supplementary Course may receive the degree of *Bachelor of Pedagogics (B. Pd.)*. After two years' successful teaching and the completion of the second year's course he may receive the degree of *Master of Pedagogics (M. Pd.)*.

State Certificates.

Practical teachers may obtain a *Teacher's State Certificate* on the following conditions:

1. All applicants must be twenty-one years of age and must have taught in the common schools of the State during three full annual terms.
2. They must present certificates in regard to moral character and skill in practical teaching, similar to those presented by the regular graduates, and have them signed by the same school officers.
3. They must be examined in all the branches of the course in which they desire a certificate by the Faculty and Board of Examiners, at the time of the annual examination at the school where application is made.
4. A thesis on some educational subject will be required as part of the examination.

The certificate granted in accordance with these conditions will enumerate the branches of study of the course in which the holder is found proficient.

All diplomas and certificates are authorized and furnished by the State, and exempt those who hold them from any further examination by superintendents or other officials acting under the provisions of our common school laws.

THE LAKE IN SUMMER.

THE LAKE IN WINTER.

Moral and Literary Culture.

Moral and Religious Training.

MAN is a moral and religious, as well as an intellectual, being. A true education requires the harmonious development of all his powers. Believing in the importance of moral and religious culture, we take great care to aid our students in forming virtuous habits, to imbue their minds with correct moral principles, and to inspire their hearts with the truths of Christianity. The institution, however, is in no sense sectarian, but *each student's religious belief is fully respected.*

Among the religious privileges of the School are morning devotional exercises, Sunday Bible Classes, prayer-meetings and an occasional sermon or religious lecture. Students are required to attend the morning devotional exercises and the Bible classes. They will be excused from the Bible classes if they or their parents or guardians have conscientious scruples against their attending. Attendance upon other religious exercises is voluntary.

Literary Societies.

Among the attractions of the School are two flourishing Literary Societies, conducted by the students, the "Page" and the "Normal." They hold weekly meetings. They have together about 10,000 well-selected volumes in their libraries. Students may become members of either of these societies by paying a small initiation fee. These societies have been models for a large number of literary societies in Normal Schools and elsewhere throughout the country, and every student is urged to join one of them.

Temperance Union, Etc.

A flourishing Young Woman's Christian Temperance Union is connected with the School. It includes among its members a large number of students of both sexes, and accomplishes a great good.

A Young Men's Christian Association and a Young Women's Christian Association have also been organized, and each body has a large and influential membership.

Course of Lectures.

The Christian Associations of the School maintain two courses of entertainments, one of four or five entertainments in the fall and winter terms, and one of two or three in the spring term. Other lectures and exhibitions are also occasionally given. Leading lectures and educational entertainments are thus placed at a small cost within the reach of all our students who desire to attend them.

Buildings, Location, Etc.

Main Buildings.

THE Normal School buildings are large, the east front of the main buildings being about 300 feet, the south front about 210 feet, and the north front 150 feet. Several upright water pipes that are connected with the standpipe are placed throughout these buildings, with hose attachments that will extend to all parts of the halls and rooms on every floor, and the utmost precautions are taken to prevent accidents by fire. There are eight stairways in different parts of the three main buildings; fire extinguishers are within easy reach; fire escapes and ladders are provided; and special watchmen are on constant duty day and night.

Ladies' Building.

The north building is a very large, handsome structure, in the old colonial style of architecture. It is intended for ladies, and has accommodations for about 400 students.

Gentlemen's Building.

The south building is used by gentlemen and has accommodations for about 300 students. The architecture of this building has been entirely remodeled, and rooms for about 75 students have been added.

Administration Building.

A large building is placed between the north and south building, completely separating them. The central building contains the chapel (a beautiful room capable of seating 1,200 persons or more), recitation rooms (sufficient for 1,000 students), Principal's offices, money office, book store, trustees' room, dining rooms, etc.

Gymnasium.

A large gymnasium, with an extension containing instructors' rooms, etc., has been completed and fully equipped with the best modern apparatus for a complete course of physical training for

ladies and gentlemen. It is located north of the new annex to the ladies' building. It is in charge of a lady and a gentleman specially fitted for their work; and all students have the opportunity of availing themselves of the great advantage of pursuing a course of physical training without extra cost. The work done in the gymnasium has proved of great benefit to our students.

Library.

A building, with frontage of 107 feet and a depth of 109 feet, has been erected for library purposes. It occupies a prominent position northeast of the main building. It has a capacity of 100,000 volumes, and one of the handsomest buildings of the kind in the country. It contains the general library of the School, the reading room and reference library, the libraries of the literary societies, etc., in all about 15,000 volumes. It is under the charge of a skilled librarian and one or more assistants, and is open several hours every day. The reference library is supplied with the *Encyclopedia Britannica*, the *International*, *New American* and *Annual Encyclopedias* and many other books of reference, including the latest works bearing upon the subjects taught in the various departments of the School. The reading room is supplied with a large number of the leading magazines and reviews, daily and weekly newspapers, religious periodicals, educational journals, etc. These exceptional literary facilities are afforded to all students without extra charge.

Science Hall.

A building devoted to the physical sciences and mechanic arts has been erected on the north campus. The front of the building is 120 feet in length, the east wing 80 feet, and the west wing 56 feet. It contains a lecture room for natural philosophy, chemical and physical laboratories, biological laboratory and museum, drawing rooms, sewing room, cooking room, rooms for a complete course of woodwork, ironwork, etc., and a fully equipped business school. This is an imposing building.

Model School and School of Practice.

A building, 123 feet by 61 feet, used exclusively as a Model School and School of Practice, was completed in July, 1901, and

first used in the fall of that year. This building was especially planned for the purpose, and is in all respects the most commodious and most convenient Model School building in the State. It is located east of the turnpike, opposite the administration building. It contains 20 recitation rooms, besides a large assembly hall, general office, library, two rooms for exercising, manual training room, chemical and physical laboratory, room for kindergarten, etc. It is the handsomest structure of the kind in the Commonwealth, with the most modern systems of heating, ventilation, lighting, sanitation, etc.

All these buildings are connected by wide walks and are within easy access.

Household Department.

A large and handsome building has been erected for household purposes. It contains carpenter and machine shops, engine rooms, a bakery of the most approved type, laundry rooms, store rooms, lodging rooms for hired help, etc. This much needed building enables the household department to be completely equipped for its important work.

Grounds.

The buildings are surrounded with grounds to the extent of about twenty acres, part of which is covered with forest trees, shrubbery and flower beds, and part is carefully laid out and used for tennis, base ball, croquet and other outdoor games. A grandstand has been erected on the base ball grounds, the basement of which is used for storing bicycles. A soldiers' monument, erected by the students soon after the Civil War, stands on the campus in front of the administration building, and two beautiful fountains ornament the grounds in front of the ladies' building. Plans for the beautifying of our campus were prepared some time ago by a leading landscape architect, and have been carried into effect, making the large campus the most beautiful park connected with any school in the State. A beautiful lake for skating and boating forms part of the plans. The grounds have been graded, walks have been laid out and hundreds of trees and shrubs have been planted, which enhance the beauty of the place.

A never-failing supply of remarkably good water is found on our grounds. It flows upwards through the rocks, which form the bottom of a large reservoir, from which it is automatically pumped into a standpipe eighty feet high, with a capacity of 50,000 gallons, and thence distributed throughout all our buildings and different parts of the campus. Our system of sewerage is piped underground to the Conestoga river, a mile away. Our water supply and sewerage system are not connected with any other buildings.

Location.

Millersville is a pleasant village, situated four miles from Lancaster city. A turnpike and an electric railway connect the two places. Electric cars leave the Philadelphia and Reading Railroad station and the Pennsylvania Railroad station at Lancaster every hour during the day and evening, connecting with all trains on both these railroads.

The location of the School is especially favorable to moral culture. It is near enough to Lancaster to enjoy the benefits of proximity to a large city, and yet not so near as to expose its students to the numerous temptations to vice common to cities and large towns. There are six churches of different denominations in the village, which students may attend. This village is an ideal location for a school of this kind.

The buildings are regarded as among the most comfortable, as well as the most commodious, Normal School buildings in the country. The recitation rooms being on an upper floor and the dining room on the lower floor, stair climbing is reduced to a minimum, and is equally distributed among the occupants of the different halls.

The improvements made in the last few years cost about \$350,000. They will be followed by others, whenever and whatever needed, the authorities of the school being determined to do all that can be done to promote the ends for which it was established, and add to the comfort and convenience of all connected with it.

Government.

THE methods of government of the institution is based upon the sense of duty and the power of self-control. More reliance is based upon the principles of self-government than on positive rules and penalties.

It is assumed that each student who enters the school understands and agrees to obey all its regulations, and is disposed to do right and submit cheerfully to the wholesome restraints that are found necessary in a well-regulated institution of this kind; and trust is placed in his sense of honor and propriety until it is seen that he is unworthy of confidence. Students may at any time be dismissed, or required to withdraw from school, for any cause deemed prejudicial to its best interests. Parents or guardians are earnestly requested not to send us persons who have contracted bad habits, or who are insubordinate, indifferent to the rights of others, or mentally or morally defective, as the safety of others will demand their dismissal.

If students are not making progress in their studies through indolence or negligence, or for any other reason, their parents or guardians will be informed of the fact. If this does not secure attention to studies, a request will be made for their withdrawal, or they will be removed by the authorities of the school.

Reports of the attendance and progress of students will be prepared as soon after the close of winter and spring terms as possible, and given to them or sent to their parents or guardians.

Regulations for Students.

The following regulations have been adopted after careful consideration as to what would promote the good of the institution and of those connected with it. It is hoped that they will commend themselves to the good sense of every student and be obeyed because they are reasonable and right.

Other regulations will be announced to students at the opening of each term and at other times if needed.

1. Buildings and Rooms.

1. Rooms may be engaged by writing to the Principal. All students are required to room in the school buildings or in private houses designated by the school. No one is permitted to room or board out of the school buildings until all the rooms are occupied, except for special reasons, and by previous permission of the Principal; and all bills for rooms and boarding must be paid to the Principal or Business Manager, who settles with the boarding-house keepers. An exception to this method of payment will be made only in the case of students rooming and boarding with near relatives. Rooms are supplied with furniture, and will be ready for occupancy on the first Monday of the session. Students who, on account of the distance they live from Millersville, desire to enter school on the preceding Saturday, may make arrangements to do so with the Principal. Other students who enter school before the opening day will be charged \$1.00 a day. Rooms should be vacated not later than the day following the close of school.

2. Rooms engaged and not occupied by the first evening of the term may be forfeited. Rooms will be assigned to new students in the order of their application and entrance as far as practicable. Forfeited rooms will be held if not selected by the students at school. Rooms will be held one week (or more by special arrangement) for students who make the advance payment on or before the opening of the session. Students may be required to change their rooms at any time or to board in the village if deemed necessary by the authorities of the school. If the health or disposition of students makes it inadvisable for other students to room with them, they will be charged for the room or room in the village. Rooms may be engaged one year in advance of time of entrance.

3. Loud talking, whistling, scuffling, etc., in the building are prohibited.

4. The use of tobacco is prohibited in the buildings or on the grounds.

5. Each student will be held accountable for damage done to his room or its furniture, or for any property of the institution injured by him.

6. No water, dirt, or other material shall be thrown from the porticoes or windows.

7. Students shall not visit one another's rooms during the regular hours of study, except by the permission of the teacher in charge. No change of rooms must take place without permission of the Principal or the person in charge of the assignment of rooms, and no furniture or other articles belonging to the school must be taken from a room. When rooms are not occupied, they must be kept locked. Students are not permitted to keep sums of money in their rooms.

8. Students furnish their own towels, soap and napkins and must have all articles of clothing plainly marked with the full name. Each student is entitled to have fifteen pieces, named on the laundry list, washed a week without extra charge. They will be charged for additional pieces. No substitutions will be allowed. Bedding is furnished by the school.

LIBRARY—SOUTH FRONT, 110 FEET; DEPTH, 108 FEET

9. Students must have their rooms put in good order before 9 a. m. No nails must be driven into the walls or ceilings, or alterations made in the windows, doors or any appendages of the rooms, without the permission of the steward or housekeeper. It is the steward's duty to visit each room in the gentlemen's building at least once a week to inspect it. If damaged or neglected, it will be put in good condition at the expense of the occupant. The ladies' rooms will be visited regularly by the housekeeper or matron.

10. On the evenings devoted to study the students must repair to their rooms at the ringing of the proper bell, and must not leave them without permission. Upon the ringing of the "second retiring bell," students are expected to be in their rooms, and all lights must be extinguished and all noise must cease. Prolonged absence from the gentlemen's building after the second retiring bell is prohibited. The ladies' building is locked at dusk.

2. School Duties.

1. A student's first duty is to report to the Principal's office for enrollment. Every student shall be present at the daily opening and closing exercises of the school, and at all general exercises in the chapel, unless excused.

2. Students will be assisted in selecting their studies by a member of the Faculty. They must not change their programmes without permission. They must enter their classes without delay and shall be regular and punctual in attending them, as no school duty can be omitted or neglected without loss. Permission to be absent from a recitation will be granted only when necessary and should always be obtained before the absence occurs. When students go home on Friday evening or Saturday morning, parents are urged to see that they return to school on Sunday evening or Monday morning before recitations begin. Students should be at school at the opening of the term, at the hour named in the Calendar (p. 3). Except for special reasons, students who remain at school till the end of the term will not be excused from any school duty before the hour named in the Calendar (p. 3).

3. Students absent from their classes shall present a written excuse to the teacher of the class, signed by the Principal, or the person designated by him, or in case of sickness in the building by the teacher in charge of the hall in which they room.

4. Students desiring to withdraw from school permanently during the term must obtain permission from the Principal to do so. They are subject to the rules of the school until such permission is granted and they have left school. Unless for urgent reasons, they will be required to remain at school till Friday or Saturday. Parents or guardians who desire to have students withdraw from school should notify the Principal. Parents and guardians are expected to direct the actions of students during vacations. Previous permission must be obtained if students desire to remain at school during the Christmas and spring vacations. No students will remain at school during the summer vacation.

5. Students are required to take regular exercise in the gymnasium under a trained instructor (unless properly excused), and for this purpose they are expected to provide themselves with suitable clothing, including shoes. Physicians will please remember that the regular exercises in the gymnasium are not severe, are carefully selected and are given under the personal direction of trained instructors. Students usually derive great benefit from them, and should not be advised by physicians to be excused from them except for physical disability. Harm has sometimes been done by excusing students through ignorance of what the exercises in a well-appointed gymnasium are. All requests to be excused should be made according to a form which has been adopted by the school and which will be furnished upon application. Excuses must be signed by the physical instructor, and are subject to the approval of a resident physician. Students excused from the exercises in the gymnasium must study a text-book or manual in class under the guidance of instructors in order to become theoretically acquainted with the exercises now required to be taught in many schools. All athletic games and contests and all public exercises are under the general control of a committee of the Faculty. No student can take part in any public game or contest whose conduct or standing in class is not satisfactory. Students must obtain permission to take part in public entertainments not connected with the school.

6. Students must have a sufficient number of studies to keep them properly employed, but not more than they can study with profit. They will prepare their lessons in their rooms or in the study hall.

7. Each student of music on the piano or organ will have regular hours assigned for practice, during which time no one shall be present to interrupt the exercises or divert the attention. Boarding students who study music only must take at least four lessons weekly and six practice periods daily.

8. All students are expected to be regular and prompt in assembling for meals; all shall conduct themselves in a becoming manner, and no one should leave the dining-room before the signal of dismissal, without good reason and permission of a teacher.

9. Any student sick and requiring attention should have his condition reported to the proper authorities, when he will be waited upon in his room.

10. Students are absolutely prohibited from playing cards, using profane or vulgar language, drinking alcoholic liquors of any kind as a beverage, entering places where alcoholic liquor is sold, or having alcoholic liquors, fire-arms, parlor matches, playing cards or objectionable books, papers, or other articles in their possession during their connection with the school.

3. Relation of the Sexes.

1. It is expected that the ladies and gentlemen of the institution will treat one another with politeness, and in accordances with the usages of good society.

2. No prolonged conversation between the sexes should take place in the buildings or upon the grounds, except in the performance of school duties or

by permission; and no conversation between them will be permitted elsewhere.

3. Neither sex will trespass upon the portion of the buildings or grounds assigned to the other sex.

4. At the close of the evening lecture or society meetings all will withdraw immediately from the chapel.

5. No student shall walk or ride with anyone of the opposite sex, except in cases of necessity, and then only with permission.

6. A gentleman student having a sister or cousin in this institution may visit her in the reception room.

7. A gentleman student cannot visit a lady student not a relative, except by permission. Gentlemen, not students, desiring to visit lady students must obtain permission from the Principal.

8. Ladies will not be permitted to have gentlemen not relatives visit them except for special reasons.

9. Ladies will meet brothers and other gentlemen who visit them in the reception room. Gentlemen will meet sisters and other ladies who visit them in the reception room.

10. Except for special reasons, no visiting will be permitted on the Sabbath or in the evening.

NOTES.—1. Permission to receive visitors should be obtained before the visitors come to the school. Prolonged visits always interfere seriously with the progress of a student in his studies, and should not be made except for urgent reasons and by previous arrangements for boarding, etc. Visits to students by any one during the school hours of the day or evening seriously interfere with their work, and should not be made unless necessary. The best time to visit students is Saturday afternoon. Young persons visiting students will be expected to conform to the regulations of the school. Children under twelve years of age will not visit students except by previous permission and for special reasons. As a rule, the regulations are not suspended during vacation.

2. *Persons who have been exposed to contagious or infectious diseases must not enter the school either as students or as visitors.*

3. Day students are subject to the rules of the school while attending the meetings of the literary societies and other exercises of the school.

4. The right to require students to testify with respect to the violation of school rules is in accordance with the practice of courts of justice, and is a right which the school maintains.

Business of the School.

Admission of Students.

STUDENTS will be admitted to the school at any time, and charged only for the number of weeks they are in attendance. *In order to make the best progress in their studies, they should enter at the beginning of the term and remain until the close.* Classes will begin their recitations on the first morning after the opening day of the term.

When students enter school they will be assigned to the class in which their qualifications entitle them to be placed.

Persons desiring to become students should inform the Principal. Rooms may be engaged one year in advance of the time of entrance.

Students who have taught school are requested to bring their teachers' certificates with them.

If it be found necessary in the future to place a limit upon the number of students admitted by this school, preference will be given to students over seventeen who desire to prepare to teach in the public schools of the State.

The School Year.

The school year consists of forty weeks, and is divided into three terms. The Fall Term of 1906 will begin on Tuesday, September 4, and continue thirteen weeks. The Winter Term of 1906-1907 will begin Monday, December 3, and continue thirteen weeks. The Spring Term of 1907 will begin Monday, March 25, and continue fourteen weeks. There will be a vacation of one week during the Christmas holidays, and two weeks between the Winter and Spring terms. (See Calendar, p. 3.)

Charges.

Boarding students are charged \$70 a term, plus an enrollment fee of \$5 (paid only once in a school year) and a contingent fee of \$1.50 for the fall term, \$1.50 for the winter term and \$2.00 for the spring term. This charge includes all regular expenses for tuition and boarding, and admits students free to lectures, entertainments, etc., given under the direction of the school. It does not include the cost of books and stationery. Day students are charged \$1.50 a week, plus the enrollment and contingent fees stated above. From these charges the State appropriation of \$1.50 a week, or \$60 a year, is deducted, thus reducing the cost to students over seventeen preparing to teach to \$160 a year for boarding students and \$10 a year for day students. For part of a term, the cost to boarding students is \$5.25 a week, plus the enrollment and contingent fees, or \$3.75 a week, plus the enrollment and contingent fees if they are preparing to teach.

Table of Charges for Tuition and Boarding.

	Fall Term, 13 Weeks.	Winter Term, 13 Weeks.	Fall and Winter Terms.	Spring Term, 14 Weeks.	Winter and Spring Terms.	Entire Year.	Part of Term, per Week.
Tuition (including enrollment and contingent fees), school privileges, etc.	\$26 00	\$26 00	\$47 00	\$28 00	\$49 00	\$70 00	\$1 50
Tuition (including enrollment and contingent fees), boarding, lodging, etc.	76 50	76 50	148 00	77 00	148 50	220 00	5 25
State Aid deducted from cost of tuition (see p. 46)	19 50	19 50	39 00	21 00	40 50	60 00	1 50
Charges for boarding, etc., after deducting State aid	57 00	57 00	109 00	56 00	108 00	160 00	
Charges for day students, after deducting State aid, enrollment and contingent fee	6 50	6 50	8 00	7 00	8 50	10 00	

For time of payments, see pp. 46 and 47. For deductions, see p. 47.

Charges for Music, Typewriting, Etc.

	Fall Term, 13 Weeks.	Winter Term, 13 Weeks.	Fall and Winter Terms.	Spring Term, 14 Weeks.	Winter and Spring Terms.	Entire Year.	Part of Term per Week.
Instrumental music and voice culture (2 lessons weekly, 2 practice periods daily)	\$20 00	\$20 00	\$37 50	\$20 00	\$37 50	\$55 00	\$ 1 65
One lesson weekly, one practice period daily	10 00	10 10	18 75	10 00	18 75	27 50	85
Use of piano (2 practice periods daily)	4 00	4 00	7 50	4 00	7 50	10 00	35
One practice period daily	2 00	2 00	3 75	2 00	3 75	5 00	20
One lesson weekly, without use of instrument	8 00	8 00	15 00	8 00	15 00	22 50	65
Two lessons weekly, without use of instrument	16 00	16 00	30 00	16 00	30 00	45 00	1 30
Violin, flute, etc.	8 00	8 00	15 00	8 00	15 00	22 50	65
Mandolin, etc.	6 00	6 00	10 00	6 00	10 00	15 00	50
Typewriting (one period daily with instructions)	6 00	6 00	10 00	6 00	10 00	15 00	50
Stenography (daily lessons in class)	8 00	8 00	15 00	8 00	15 00	22 50	65
Penmanship (special lessons in class daily)	6 00	6 00	10 00	6 00	10 00	15 00	50
Special elocution (private lessons, 1 lesson a week)	8 00	8 00	15 00	8 00	15 00	22 50	65
Painting or drawing (private lessons, 1 lesson a week)	6 00	6 00	10 00	6 00	10 00	15 00	50
Chemical laboratory (charge for breakage)	1 25	1 25	2 50	1 25	2 50	3 75	10
Manual training (charge for material)	50	50	1 00	50	1 00	1 50	05
Dinner, five school days	9 75	9 75	19 50	10 50	20 25	30 00	75

Tuition in regular classes to special students in music, stenography, etc., one class, 60c. weekly; two classes, \$1.10; three classes, \$1.30; four or more classes, \$1.50; stenography and type-writing and three English branches, \$1.50; double entry bookkeeping and three English branches, \$1.50.

Students desiring to occupy single rooms may arrange to do so, when the building is not full, for 75c. a week additional charge.

Teachers who enter school not later than the beginning of the week following the close of their school term and remain until the close of the spring term will be charged term rates.

There is no extra charge for vocal music, penmanship, elocution, or single entry bookkeeping taken in regular classes, nor for Latin, Greek, French or German.

An enrollment fee of \$5.00 is included in the foregoing charge for tuition. It is charged only once each school year, and entitles the holder to a card of admission to all regular classes until the end of the school year. It must always be paid when the student enters school, in order to secure enrollment, and will not be refunded for any reason.

Boarding to students during winter and spring vacations and transient boarding, \$5.00 a week, or \$1.00 a day.

No persons are taken as boarders during the Summer vacation.

The bills for stationery and books range from \$2.00 to \$6.00 a year, depending upon the number and kinds of studies a student pursues and the care he exercises in making his purchases.

The extra expenses of students are very small, consequently they do not need a large amount of spending money. Arrangements are made by which students may deposit money with the treasurer, and draw at such times and in such sums as they need.

Payments.

Payments for the term for which students enter school are to be made when they enroll as students. In other words, payments for each term are to be made in advance, at the beginning of the term. See Table of Expenses, p. 45.

Advance payments for boarding students preparing to teach: First term, \$57; second term, \$52; third term, \$51 (spring term only, \$56). Day students preparing to teach pay the enrollment and contingent fees in advance.

If other times of payment are desired, previous arrangements must be made with the Principal, and in case persons are unknown, satisfactory reference must be given. But no student can be admitted without a payment on account.

Payments for music, stenography, etc., one-half in advance, the remainder at the middle of the term.

The bills for books, stationery, etc., should be settled before the close of the school term.

All bills must be paid or satisfactory arrangements must be made for their payment before students are recommended to the State Board of Examiners for "final" examination or for their second diplomas.

Deductions.

A deduction of one dollar and fifty cents a week is made to students over seventeen preparing to teach (see Appropriation to Students, p. 48). This deduction makes the *tuition in this institution free to all students preparing to teach in the public schools of the Commonwealth.*

No deduction is made for sickness in school, but for absence from school two consecutive weeks or more at one time on account of sickness or any other reason satisfactory to the Principal, a deduction is made of \$2.75 a week from the charge of boarding. Money paid in advance will be refunded to parents or guardians if students leave school for any reason satisfactory to the Principal. No part of the enrollment fee, however, will be refunded. No deduction is made to students entering within the first week, or leaving within the last two weeks, of the term. No deduction is made for part of a week.

Settlement of Accounts.

All bills must be settled with the Principal or Business Manager, who acts in behalf of the Trustees. A student's account for one term must be settled before he enters for another term, unless by special arrangements made with the Principal or Business Manager.

There are no EXTRA CHARGES except for the EXTRA BRANCHES named above, hence our charges are lower in reality than those of many similar institutions.

Appropriation to Students.

The following appropriation is made by the State to students preparing to teach in the public schools:

Each student over seventeen years of age who shall sign an agreement binding said student to teach in the common schools of the State two annual school terms, shall receive the sum of ONE DOLLAR AND FIFTY CENTS A WEEK in full payment for the expenses of tuition of said student, provided that each student in a State Normal School drawing an allowance from the State must receive regular instruction in the science and art of teaching in a special class devoted to that object for the whole time for which such an allowance is drawn.

In case of a deficiency in the State aid to students, each student in the different State Normal Schools will receive his proportionate share of the appropriation, as determined by the State department. This rule must be enforced by all the State Normals.

Alumni Loan Fund.

The Alumni and other friends of the school have established a fund, which is lent to deserving students without interest to enable them to complete their studies at this school. The fund amounts to nearly \$1,500, and its benefits have to this time been confined of necessity to members of the upper classes. Contributions to the fund will be thankfully received. Address Prof. J. W. Lansinger, Millersville, Pa., treasurer of the fund.

Scholarships.

A free scholarship has been established by the students of the school during the administration of Prof. James P. Wickersham as Principal. It is designed to honor the memory of this distinguished educator, and is entitled the Wickersham Memorial Scholarship. It is awarded at the close of each school year by the Faculty and State Board of Examiners to a student who has completed the "Final" examination for entrance to the Senior Class, and includes free tuition and boarding and the use of text-books rent free for the Senior year. The basis of selection is scholarship and moral character.

The sum of \$1,000 has been subscribed by the Class of 1898, the interest of which is used annually in assisting to pay the expenses of a meritorious student. This scholarship is awarded at the close of each school year.

LADIES' BUILDING.

EAST, 150 FEET.

REMODELED 1894

NORTH, 150 FEET.

THE NEW MODEL SCHOOL BUILDING.

123 FEET BY 61 FEET.

Prizes for Scholarship.

The following prizes will be donated by the Board of Trustees to students who will complete the Regular Course at this institution. They will be awarded on the basis of scholarship and deportment, and will be due and payable after graduation. The amount of the prize will be deducted from the student's bill after graduation, or paid to him in cash if his bill is settled.

For General Scholarship.

To candidates of the Middle Class who have attended this school at least two terms.)

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars.

To candidates for the Senior Class who have attended this school during the Middle year.)

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all students except those to whom the scholarships are awarded.

(To members of the Senior Class.)

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all students except the holders of the scholarships.

For Practice Teaching in Model School.

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all Seniors except the holder of the Wickersham scholarship.

When two contestants entitled to prizes have equal rank, the prizes will be divided equally between them. When a student's standing entitles him to two prizes (including scholarships), the higher prize will be awarded to him.

The foregoing prizes are intended to encourage students to graduate, and consequently are awarded only upon the condition that the students selected to receive them complete the Regular Course in this institution. For this reason they do not become due until after graduation, nor are they payable to any one who does not graduate at this school.

Prizes for Composition and Public Speaking.

Hon. John H. Landis prize. Ten dollars in gold awarded to the best debater or debaters. Open to all students.

Louis C. Lyte prize, for the best essay on "Trees," "Arbor Day," "Plants," or a kindred subject. The interest of \$250. Open to all students.

Principal's prize, for oratory. The interest of \$250. Open to all students.

Class of '95 prize, for oratory. The interest of \$100. Open to members of the Junior Class.

Text-books.

Text-books are sold to students below Philadelphia retail prices. Students desiring to rent their books can do so by paying *one cent a week* for each book costing *sixty cents* or less, and *two cents a week* for each book more than *sixty cents*, when returned uninjured; if returned otherwise, the full price of the book will be charged. The text-books now in use are the following:

Pedagogics.—Brooks's Mental Science and Methods of Teaching; James's Psychology; Parker's Talks on Teaching; Parker's How to Teach Geography; Frys's Child and Nature; Speer's Lessons in Form; Dutton's School Management; Kemp's History of Education; Harris's Rosenkranz's Philosophy of Education; Froebel's Education of Man; Fitch's Lectures on Teaching; Quick's Educational Reformers; Haven's Moral Science; Atwater's Logic.

Language.—Westlake's Orthography; Rice's Rational Spelling Book, Swinton's, Hillard's, Stickney's, Raub's, Harper's and Appleton's Readers; Shoemaker's Practical Elocution; Brace's Elocution; Southwick's Steps to Oratory; Lyte's Language Series; Lyte's Grammar and Composition; Newcomer's Rhetoric; Westlake's Common School Literature; McNeill and Lynch's Introductory Lessons in English Literature; Pancoast's Introduction to English and American Literature; ——— English Classics; Heydrick's How to Study Literature; Pearson's Essentials of Latin; Pearson's Greek Prose Composition; Harkness's Latin Grammar; Lowe and Ewing's Cæsar; Allen and Greenough's Cicero and Virgil; Goodwin's Greek Grammar; Boise's Greek Lessons; Boise's Xenophon's Anabasis; Guerber's Märchen und Erzählungen; Joynes-Meissner's German Grammar; Whitney's German Texts; Chardenal's French Grammar; Telemaque; Student's Series of Classic French Plays.

Mathematics.—Hull's Arithmetics; Brooks's Mental and Written Arithmetics; Hull's Complete Algebra; Olney's Higher Algebra; Hull's Complete Geometry; Davies's Surveying; Philips and Strong's Trigonometry; Wood's Elements of Co-ordinate Geometry; Peck's Analytical Mathematics; Taylor's Calculus.

Natural Science.—Walker's Physiology; Hoadley's Elements of Physics; Bailey's Botany; Bitner's Plant Analysis; Peck's Astronomy and Mechanics; Comstock's Astronomy; Shepard's and Peter's Chemistries; Olmstead's Natural Philosophy; Colton's and Tarr's Geologies; Packer's Zoölogy.

Historical Science.—Roddy's Political Geography; Dryer's Physical Geographies; Johnston's, Bnanes's, Adams's and Trent's Histories of the United States; Myer's General History; Wrong's History of the British Nation; Philip's State and Nation; Shimmel's Pennsylvania Citizen.

The Arts.—Lyte's Practical Bookkeeping; Lyte's School Bell; Root's First Years in Song Land; Natural, Tuft and Holt's and Mason's Music Courses; ——— Form Study and Drawing; ——— Penmanship.

It is suggested that students bring their text-books with them to school. If not used in the classes, they will be convenient for reference.

Application for Teachers.

Many directors of schools and principals of academies and seminaries apply to us for teachers. We are always pleased to answer such requests by furnishing good teachers, but we are better able to do so near the close of each school year than at any other time. While the school aids its graduates to secure positions, it makes no promises to do so. At the same time, it may be said that for several years we have been unable to supply the demand made upon us for graduates to fill positions in all grades of schools. Persons desiring to secure our graduates should, therefore, write at an early day. Great care is exercised by the Principal in recommending graduates for positions.

It must not be supposed that all persons who attend our school for one or more terms are good teachers. The graduates of the school are almost invariably successful instructors and disciplinarians.

Applications to the Principal to recommend students for any employment must state the nature of the employment definitely, in order to secure attention.

Persons desiring to employ students as agents should make application to the Principal. Permission cannot be granted to any one to visit students in their rooms for the purpose of employing or instructing them as agents. Permission cannot be granted to anyone to sell any articles, either by samples or otherwise, in the buildings or on the grounds.

Mail, Telegraph, Etc.

The school has four mails daily. Mail matter should be addressed: *Millersville, Lancaster Co., Pa.* The words *State Normal School* on the envelope of a letter or package will facilitate its delivery and may prevent it from being sent to the wrong post-office.

Write the name of the post-office, *Millersville*, plainly. Mail matter fre-

quently fails to arrive promptly because it is directed to Millersburg or Millerstown or Minersville, instead of *Millersville*.

All telegrams must be addressed: *State Normal School, Millersville, Pa.*, to secure their free delivery by telephone from Lancaster.

The school is connected by telephone with nearly all parts of Eastern and Central Pennsylvania.

Express packages should be addressed: *State Normal School, Millersville, Pa.*

Express packages, as a rule, should be prepaid.
